10	AI Learning Management	NLP + Recommenders	★★★★★	★★★★★

Why choose AI Interview Preparation Platform?

1. Solves a real-world problem for students and job seekers.
2. Combines Deep Learning, NLP, LLMs, and recommendation systems.
3. Covers complete Full Stack development (React, Node.js, MongoDB, APIs).
4. Easy to extend with voice, video, resume analysis, and coding interviews.
5. Demonstrates practical AI integration to recruiters.
6. Strong project for placements and higher studies.
7. Showcases multiple technical skills in one project.
8. Easy to demonstrate during interviews.
9. Highly scalable with future enhancements.
10. Unique portfolio project compared to common student projects.
